IMPATIENS-GERANI TALEA IN ERBA

Indicata per aziende dotate di attrezzature per la radicazione.
UNROOTED CUTTING Suitable for growers provided with rooting equipment.

IMPATIENS TALEA RADICATA Ø 3 cm - 144 FORI

Una buona soluzione per chi non vuole radicare e non spendere molto.
Le talee sono tutte ben radicate e partono velocemente dopo la piantagione.

ROOTED CUTTING Ø 3 cm - TRAY 144 HOLES

Good solution for growers who don't like to make rooting.
The cuttings are well rooted and start very well after transplanting.

IMPATIENS-GERANI TALEA RADICATA IN PAPERPOT Ø 5,5 cm - 60 FORI

Talea ben sviluppata e accestita, radicata in cubetto.
La carta che riveste il cubetto è biodegradabile, permeabile all'acqua e non ostacola la fuoriuscita delle radici. Ideale per coltivazione semiforzata.

ROOTED CUTTING IN PAPERPOT Ø 5,5 cm - TRAY 60 HOLES

Good branching for this well grown cutting, rooted in paperpot. The paper which covers the cube is biodegrading, water-permeable do not hamper rooting.
Good solution for semi-forced crop.

IMPATIENS-GERANI PLACCA 32 FORI Ø 6 cm

Tipologia per chi richiede un prodotto ben accestito e con apparato radicale pronto. Ideale per la riduzione dei tempi di coltivazione e dei costi di trasporto.

TRAY 32 HOLES Ø 6 cm

Nice solution for those who need a good rooted and branched product
Ideal to reduce transport costs and period of growing.

GERANI VASO Ø 8 CM MEZZA CULTURA

La pianta è ben formata e ramificata.
Ideale per chi vuole ottenere in breve tempo un prodotto commerciale.

HALF READY POT Ø 8 cm

The plant is fullygrown and branched. It is the best thing for those who need to obtain a commercial product in a short time.

VASO Ø 10 cm MEZZA CULTURA

La pianta può essere utilizzata per il trapianto, oppure destinata direttamente alla vendita. Se trapiantata, ha bisogno di un brevissimo tempo di coltura per essere commercializzata.

HALF READY POT Ø 10 cm

The plant can be used to be transplanted or directly to be sold.
If it is transplanted it needs a very short time of growing to be commercialized.

GIOVANI PIANTE • ENERGIA PULITA • SOSTENIBILITÀ

Albani e Ruggieri coltiva oltre 18 ettari di serre riscaldate esclusivamente con energia geotermica. Grazie all'utilizzo di una fonte rinnovabile naturale, l'azienda ha sviluppato un modello produttivo ad alta efficienza energetica, con un ridotto impatto ambientale e una forte attenzione alla sostenibilità delle proprie coltivazioni.

Albani e Ruggieri operates more than 18 hectares of greenhouses heated exclusively by geothermal energy. Through the use of this natural renewable resource, the company combines high-quality young plant production with energy efficiency, environmental responsibility and long-term sustainability.

SOLUZIONI PRODUTTIVE PER UNA FLORICOLTURA SOSTENIBILE

Albani e Ruggieri offre un'ampia gamma di giovani piante, disponibili in diverse tipologie, dalle talee non radicate alle piante radicate in differenti formati di tray, per garantire ad ogni cliente la soluzione più adatta alle proprie esigenze produttive.

La nostra filosofia aziendale coniuga qualità, innovazione e sostenibilità. Oltre a produrre utilizzando esclusivamente energia geotermica, orientiamo costantemente la nostra attività verso varietà che richiedono un minore impiego di risorse, riducendo il consumo di acqua, energia, regolatori di crescita e prodotti fitosanitari.

Il nostro assortimento è sviluppato per rispondere alle sfide che i produttori affrontano ogni giorno, offrendo soluzioni che favoriscono una gestione più efficiente delle colture, una riduzione dei costi di produzione e un minore impatto ambientale, contribuendo così a una floricoltura sempre più sostenibile e competitiva.
